SKILLS

Technical Skills	JavaScript, Python, React, VueJS, FastAPI, AWS
Soft Skills	Outgoing, Team Leader, People Synergy, Energetic

EXPERIENCE

Software Engineer Charter Solutions, Inc.	Jun 2021 - Present <i>Plymouth, MN</i>
---	---

- Contributed to a three-tier web application consisting of a web layer using VueJS, an application layer using AWS API Gateway, and a data layer in the Amazon Relational Database Service (RDS).
- Created python web scraping scripts utilizing Selenium and Pandas.
- Built internal data lake and ingestion process with AWS CDK, AWS Lambda, AWS SQS, AWS CloudWatch, and AWS S3.
- Contributed to a cloud-agnostic application utilizing AWS, Azure, FastAPI, Docker, Kubernetes, and MongoDB.
- Communicated with project stakeholders, other technical teams, and senior management describing software product features, technical designs, and product strategy.

Full-Stack Engineer agnoStack	Jan 2021 - Apr 2021 <i>Chicago, IL</i>
---	---

- Implemented Shippit provider integration with BigCommerce, allowing users to directly view real-time shipping info within the agnoStack plugin.
- Led customer reach out and sign-ups, achieving 10% growth in Monthly Recurring Revenue.
- Developed scripts to scrape data from public websites in order to improve customer reach out using Node, Puppeteer, and basic CSS query selectors.

Teaching Fellow Fullstack Academy	Sept 2020 - Jan 2021 <i>Chicago, IL</i>
---	--

- Debugged, mentored, and taught JavaScript to over 50 students.
- Oversaw student projects as technical mentor and project manager.
- Performed weekly code reviews with students.
- Led weekly technical interview white-boarding problems.
- Interview prospective students for admission to the program.
